BILLBITCOINS – CONNECTING USERS TO A FRICTIONLESS GLOBAL PAYMENT NETWORK

GET CONNECTED TO A FRICTIONLESS GLOBAL PAYMENT NETWORK, POWERED BY BITCOIN

ELIMINATE MIDDLEMEN

Conventional card based payment platforms cost you upto 3% per transaction. Through Billbitcoins you save upto 2% without the hassles of card platforms.

DO BUSINESS WITH THE WORLD

Get payment in any amount, from any corners of the world, from any computer or mobile device.

ZERO CHARGE BACKS

Bitcoin does not force its users to shoulder the risks of payment fraud. Merchant can refund and Customer's can pay without disclosing sensitive information.

IDENTITY THEFT PROTECTION

Through the bitcoin network, Billbitcoins maintains a record of your transaction. Any fraudulent transaction can easily be tracked back to the source.

ADDITIONAL INFORMATION

The concept behind Billbitcoins is to make cryptocurrency transactions traceable, transparent and fast. This payment processor has advantages both for customers and for merchants. he platform also provides a fast and hassle-free means of payment. If they qualify for a refund, it will be fast and customers will see the funds back into their Bitcoin wallet.On the other hand, merchants benefit from a simple method of creating and implementing the "Buy Now" button on their website. Billbitcoins allows them to track every transaction in real time. Also, the platform helps dealing with customers' complaints and requests for refunds.
The blockchain technology used for Bitcoin transactions ensures the fastest process possible. With credit card, merchants have to wait for 60 days until they can acknowledge a payment as received. Banks allow this period of time for cardholders to dispute a transaction.

Thanks to their transparency and traceability, Bitcoin payments do not need this resolution period. The funds enter the merchant's wallet directly. Also, customers receive their refunds fast. In this way, merchants have more certainty when they prepare their financial statements for audit and calculate their revenues.
